My stomach failed me as nothing I ate seemed to do me any good, but always gave me pains and beiching of gas. My kidneys got sore and weak, I had palpitation of the heart, my lungs were sore, and it was difficult to draw a long breath. I also had fainting spells, and while walking was afraid I might fall to the sidewalk. I also had to get up at night and sit in a chair to keep from smothering. My legs and arms pained me most of the time, my feet were cold on the hottest day, my tongue was coated, I had chills from my head to my feet. I was weak and had very little life and everything looked dark to me, and often wished for the end.
